

# Learning Plan: Instructions

This unit is designed around modules and the principle that *the more you learn, the more you earn*. To obtain a Pass grade, you will need to complete all core modules. To achieve higher grades, you are required to complete additional modules.

Since the number of tasks that you need to complete depends on your target grade, this impacts the deadlines for each of the tasks. You will have more time to complete the core tasks if you aim for a Pass than if you aim for a higher grade. Therefore, we have set different deadlines depending on your aim.

Unfortunately, OnTrack is not flexible enough to allow us to set the deadlines based on the target grade, so we rely on keeping these dates in a **Learning Plan**.

Your first task is to select a grade and submit the learning plan in accordance. You will find a Word document named **Learning Plan SIT292** containing a table with all the deadlines, in the **Resources** on this OnTrack page (see Figure 1 below). The deadlines are spread across the trimester, to give you an opportunity to spend approximately a similar amount of time on each module, with later tasks allocated a little more time.

All you need to do is choose your learning plan and complete the Planning and Grading Agreement sections, then upload the **Learning Plan** document as a pdf after deleting the unnecessary plans and instructions.

## 292. Learning Plan: Instructions

---

This learning plan will serve as a contract between you and your teaching team. You are expected to submit your tasks according to these deadlines. Variations on the deadlines are possible during the trimester but need to be first discussed with your tutor.

The due dates depend on your target grade. The dates for the core module lesson reviews on OnTrack are the dates by which we will review your submissions (corresponding to a **Pass target**). Submitting by the OnTrack dates will allow you to pass the unit, but you are unlikely to achieve a higher grade. If you submit your reviews after the OnTrack date, then you will not receive feedback on your work, which will only be evaluated together with the portfolio at the end of the trimester.

### What if you are unsure what grade to target?

You can change your target grade at any time. For now, just pick the grade you are most comfortable with. If you are hesitating between two grades, we advise you to pick the higher one. The deadlines will be sooner, and if you ever need to downgrade, you can simply relax the deadlines.

More generally, you will be able to review your learning plan at regular intervals throughout this trimester.

### More advice?

For further information, please see the *Start Here! - Learning Plan and SIT292* content on the unit site.
