
Learning Checkpoint: Instructions

This is a simple task to review your progress and your learning plan.

Download the form in the Resources on this OnTrack page, and complete and submit the learning checkpoint (as a pdf). We provide a few prompting questions to help you. These questions ask about your progress and whether you anticipate any issues.

Do not forget to update your learning plan and discuss with your OnTrack tutor if necessary.

This support task is designed to support your achievement in the unit. It may not directly contribute to your overall grade, and is not required in order to receive a pass, but will be taken into account as part of the holistic assessment of your portfolio.

One important thing to remind you of as we approach it is the **Census date**.

If you do not believe that you will be able to achieve a pass for this unit, it is best to withdraw from the unit before the census date to avoid the academic and financial implications of failing.
